

Water and Sewer By-Laws Carried by Vote of 195-27

Didsbury is to have waterworks and sewerage. This was the verdict registered by the property owners of the Town in last Thursday's vote when more than 85 per cent of the voters marked ballots in favor of modern conveniences.

The final count of the ballots was completed about 8.30 Thursday evening and Returning Officer F.L. Evans declared the result of the ballot as follows:

For the By-Laws 195
Against the By-Laws 27
Spoiled ballots 4

While there were about 350 property owners on the voters' list, some are non-residents, others were away, and some did not turn out to vote. However, the vote was considered representative of the wishes of the majority of property owners and the project will no doubt be started just as soon as the debentures can be issued.

Considerable material for the waterworks and sewerage system is already on hand, and more is awaiting final instructions for shipping. It is expected that most of the material needed will be available as required by the contractors, Wilson & Wilson, who expect to start construction work as soon as machinery can be moved in.

It is hoped to have the water system in operation before freeze-up this fall.

University Choir At Didsbury May 3

The famous University Choir will again tour parts of Alberta this spring and arrangements have been completed by the Didsbury Lions Club to have the choir come to Didsbury on Tuesday, May 3rd. The concert will be put on in the Didsbury Opera Theatre and as seating capacity is limited patrons are urged to secure tickets early.

Chorus members hail from all parts of Alberta, the great preponderance coming from points other than Calgary and Edmonton. There are representatives from all points to be visited.

The majority of the members have had little or no previous vocal or instrumental experience. Half of the members are singing in the chorus for the first time this year. Four months of intensive practice have produced a concert of near professional quality.

SUCH WAS LIFE

When the sash and door factory was in operation in Didsbury in 1906 Martin and Fred each had a team to haul lumber from what is now Water Valley. They each had a pair of overalls—one pair was good and one pair was not good in order to come to town and not look too shabby they decided to alternate their trips. When one came to town the other went to the saw mill. When they met enroute they changed overalls and so the good pair kept coming to town and the other pair went to the sawmill. Hardtimes? Just good old days.

PIONEER CITIZEN

This is the first of a series of incidents that happened in Didsbury and district in the early days. Anyone who has other interesting items of the early days can send them to the Didsbury Pioneer, and they will be reviewed by "Pioneer Citizen."

East Rural Power Almost Assured

Directors of the Mountain View Rural Electrification Association Ltd. have been completing their canvass of the district this past week and farmers have been signing up well, with many making payment in full.

Out of a total of 99 drafted on the proposed map of the area more than 80 have given final approval and made deposit payments, and sufficient farmers have now signed up for power to assure the building of the line and keep within the mile limit. Unless complete sign-up can be assured in the next few days some farms will be dropped from the proposed area until such time as neighbors co-operate, but plans will go ahead on line construction on a restricted scale.

REDEEMER LADIES' AID TO SEND DONATIONS TO CONCORDIA

The Ladies' Aid of Redeemer Lutheran church met in the basement of the church on Thursday, April 14. Pastor Fox spoke on the healing of the nobleman's son and showed the importance of that faith played in this miracle, concluding that our faith today ought to follow the example of that of the nobleman.

The Aid, during the business session, discussed arrangements for the Pastoral Conference to be held at Redeemer Lutheran Church April 26 to 28. It was also decided to send donations and gifts to Concordia College on the forthcoming College Show, May 4.

The meeting closed with a delicious lunch being served.

Joseph Dalton Killed by Train

Another railway crossing accident at Didsbury on Monday afternoon claimed the life of one of the Joseph Dalton's old timers, Joseph Dalton, who was struck by the 5.20 passenger train from the north as it was pulling into the station.

Mr. Dalton, who was 76 years of age, was hard of hearing and apparently did not see or hear the approaching train when he was crossing the tracks opposite Law's Drug Store, and according to witnesses he was struck by the engine and carried about 20 feet. Dr. Epp and Dr. Purdie were both called to the scene of the accident to find Mr. Dalton still alive and he was rushed to the Didsbury hospital but died enroute.

Mr. Dalton was well known in Didsbury and district, having home-stayed west of town in 1905. He is survived by a son, Tom, and two daughters.

The scale of wages paid for road work was set as follows:

3 blade drag or 10 ft. blade, 50c per mile travelled; tractor and 12 foot blade, 60c per mile travelled; tractor and 10 foot blade or drag, 65c per mile travelled; tractors only: small, \$1.25 per hour; medium tractor \$1.50 per hour; large tractor \$1.75 per hour.

Hire of municipal machinery outside of municipal work done by grader crew was set at \$7 per hour for ratemakers and \$10 per hour for non-ratemakers for use of D-7 and D-8 tractors; \$5 per hour for ratemakers and \$8 per hour for non-ratemakers for use of motor graders.

Rate of pay for grader crew was set at \$1.00 per hour for ratemakers and one an hour for "flunkies".

Arrangements were made to place an order for a carload of culvert material.

The scenes presented were Behold from Afar, Placed in Joseph's Tomb, Buried in the Tomb, Triumphed Over the Grave, Arisen From the Dead, Sought by Mary Magdalene, and Ascended Into Heaven. The background of the setting represented a dark blue night sky and a mountain. Beautiful colored lights enhanced the various scenes, as the characters, dressed in clothing of the period when these events took place, portrayed the scenes. The choir sang appropriate selections before and between each scene.

Grass Fire Brings Out Spectators

A grass fire north west of the Ed 2nd residence on Friday afternoon threatened Mr. Jans buildings for a time, but quick work by a few citizens soon had the blaze under control.

The alarm was sounded at 3.15 in the afternoon and Friday being a warm day and a holiday, many citizens were out of doors and attracted to the scene of the blaze by the smoke. The local fire brigade used chemicals, and aided by citizens with wet socks they soon had the fire under control and no apparent damage was done.

Friday evening the fire alarm again sounded about 8 o'clock when another grass fire occurred near the Sam Shantz farm about a mile south of town. This fire was soon brought under control with no apparent damage done outside of the loss of a few trees.

This spring has been one of the worst of crops and grass fires throughout the province have been numerous. Citizens burning around buildings should take every precaution, and unless in a clear space no fire should be lit when a wind is blowing.

The future lies at the point of the drill

The names of Canada's new oil fields have been heard from coast to coast . . . Leduc, Woodbend, Redwater.

They are fields discovered in the greatest search for oil in Canada's history. Already they have brought benefits to all Canadians; and in the west where they are turning back the tide of expensive imports the direct savings are counted in millions.

But before the fullest benefits can reach everyone even more oil must be found.

The successes of the past two years have been possible because there were people willing to go on risking millions in the search in spite of repeated disappointments.

Now, after the barren years that went before, these new fields seem large—and they are large! But they are far from enough to make Canada self-sufficient.

Canada is still dependent on foreign countries for more than 80 per cent of her oil and so her own resources must be developed. Exploration must be continued. More and more wells must be drilled so that markets can be expanded.

There is not yet enough oil to justify the big investments that will be needed if all Canadians are to enjoy the fullest benefits of western resources. Pipe lines, for instance, cost a lot to build; but over the years they provide low cost transportation—so necessary to reach out to wider markets. The Edmonton-Regina line planned by Imperial is but a beginning.

Further discoveries are the only means of breaking through the distance barriers that hem prairie oil with transportation costs. The future lies at the point of the drill.

IMPERIAL OIL LIMITED

If you're interested in facts . . .

While it is now estimated the known oil in Alberta is roughly equal to our needs for the next five years, actually that oil could not be produced efficiently in less than 25 years.

To meet her present oil requirements it has been estimated Canada needs reserves of several billion barrels.

Imperial's 450 mile pipe line from Edmonton to Regina is expected to be in operation by the end of next year. Cost is estimated at between \$30 and \$40 million. It is a big low rate water tank.

and a costly one.**

GRATITUDE TO OUR TOWN COUNCIL

Didsbury property owners voted overwhelmingly on Thursday in favor of water and sewage in town and we do not believe they will ever regret their timely decision. While some voters were not in favor of the plan it is to be hoped that those who opposed the waterworks will now get behind the project and work for the good of the town as a whole.

Didsbury has a future which will become more apparent as time goes on. Present and future home owners can now plan ahead, knowing that property improvements will be a joy to them now and in declining years. Business men can improve their premises and enlarge stocks as profits permit, with the knowledge that their future security is tied up with the development of a good town.

The fight for water and sewage in Didsbury has been an up-hill battle from the start more than five years ago, mainly due to the fact that only part of the town was to be served with modern facilities. The reason for this is that Didsbury townsite is probably larger in area than any other town of like size in Alberta, with houses scattered and many vacant lots between dwellings. Now, however, this situation will be remedied. Vacant lots on water and sewer mains will gradually be built upon as the demand for new homes continues. East Didsbury, particularly, will benefit in the future from water and sewage because as the town grows it must grow eastward where some of the best building lots in town are available. Once the initial water system is in operation there is no doubt that extensions will be made to the system.

Didsbury citizens owe a debt of gratitude to those who worked diligently this past few years for water and sewage. The work of the late Dr. J.L. Clarke, who first proposed the plan, was carried on by individual citizens and the Town Council, which had many obstacles to contend with, mainly increased costs, before the final vote could be taken. However, it is to the credit of the present Council, including Mayor H. Lynch-Staunton and Councillors C. E. Reiber, Geo. Parsons, Jas. Caithness, H.M. Bowman, Dale Kimmel and S. J. Gilson, that the question was finally brought to a head. Let us hope they continue their interest in this most-needed utility until the system is in operation.

COYNE—FORZANI

Seven o'clock on the evening of March 26 was the hour chosen by Phyllis Jean Forzani for her marriage to Nelson Alfred (Bill) Coyne. Before an altar banked with ferns and baskets of mixed spring flowers, Major J. Steele performed the service for the daughter of Mr. and Mrs. C. Forzani and Calgary, and the son of Mr. and Mrs. J.B. Coyne of Didsbury, Alberta.

Given in marriage by her father, the bride was gownned in a floor-length model of traditional white satin, styled with sweetheart neckline, and matched with a full-length bridal veil which cascaded from a coronet of orange blossoms. The groom's gift of a locket was her only jewelry, and she carried a bouquet of white Calla lilies centered with red roses.

In pastel hues of pink and blue respectively, were the formal frocks of Miss Lucille World, maid-of-honor, and Miss Kathleen Forzani, who was her sister's bridesmaid. They complemented their ensembles with chapel veils to tone with their frocks, and carried bouquets of pastel-toned carnations.

Alice Coulter, brother-in-law of the groom, was groomsman, and Cecil Ryba, and Frank Cranston ushered the guests. Stanley Robinson of Lethbridge played the wedding music, and Miss Faith Howard sang "O Promise Me" during the signing of the register, and at the reception following the nuptials sang "Till We Meet Again."

Following the ceremony a reception was held at the Sky Room, where bouquets of daffodils were arranged on the bride's table.

Receiving with the bridal couple, the bride's mother chose a two-piece navy blue ensemble with hat of winter white accented with blue trim. Her corsage was of red roses. Navy blue was also worn by Mrs. Coyne, whose matching hat was trimmed in pink with red roses in her corsage.

Major Steele proposed the bridal toast, to which the groom responded.

When leaving later with her husband on their wedding trip to Banff the bride changed to a pale blue cabaret suit topped with a burgundy coat and completed with black accessories. Red roses formed her corsage.

Mr. and Mrs. Coyne will make their home at 410 30th Ave. N.W., Calgary.

Canadian Trout Eggs Flown To Colombia

Something of a record was achieved recently, when 50,000 lake trout eggs were flown from the fish hatchery in Port Arthur, Ont., to the South American Republic of Colombia, with a loss of only eight. Colombia expressed appreciation to the Canadian authorities responsible for packing and shipping these trout eggs, and thought that the experiment would prove beneficial to their country. The fingerlings were put into Lake Cocha. In southern Colombia.

BURNSIDE NEWS

The dance and play held by the Sunnyslope group in Lone Pine Hall on Wednesday, April 13, was a real success and everyone reported having an excellent time.

We are glad to see Walter McCulloch about again following his recent illness.

Mr. and Mrs. W.P. Shultz visited at the Mardon home Tuesday last. Mr. and Mrs. Jensen of Forest Lawn visited relatives in the district over the Easter holiday.

Mrs. Schmidmiller of Calgary is visiting at the home of her parents, Mr. and Mrs. Phil McNeil.

Norma McCulloch, who is attending school at Edmonton, is home for the Easter holidays.

C.H. Mardon of No. 2 Wireless Military Hospital was home for the week end.

Ivor Weber is making hay while the sun shines. He has engaged the brush breaker crew to bulldoze a basement for the new house he intends to build this fall. Ivor is also cutting for the power line to be built, and we understand he will be installing a water and sewer system in his new residence.

We are pleased to hear that the cheese factory business has been sorted, and the farmers will certainly appreciate the future cold storage facilities.

Believe it or not!—Rain fell for half an hour at Poverty Flats last Wednesday.
